Sub: Expressing appreciation for your work

Dear Mr. Bhavin Khatri,

We have been working with Shilpi Designers for Interior Designing since 2014. What works for us is that they provide End To End Solution.

I would like to extend my heartiest appreciation to you and to your team members for making our 25 Stores successfully. Without your contribution it would have been completely impossible. It's a privilege for us to have a business association with an organization like yours.
